

# **Chronic Traumatization and Dissociation of the Personality: Theory, Assessment, and Treatment**

**Ellert R.S. Nijenhuis Ph.D**

**June 15th & 16th, 2012**

National Council for Voluntary Organisation London N1 9RL

We are delighted that Dr Ellert Nijenhuis has agreed to come to London to offer a two day workshop for UKAPI on 'Chronic Traumatization and Dissociation of the Personality'.

Dr Nijenhuis is a world expert on dissociation. He has won many awards for his work as a researcher, psychotherapist and psychologist. His latest book, co-authored with Onno van der Hart and Kathy Steele, *The haunted self: Structural dissociation and the treatment of chronic traumatization*, received the ISSTD's Media Award and was described as making "... a landmark contribution to the study of trauma and an instant classic in the study of dissociation and dissociative disorders."

Over the two days, Dr Nijenhuis will offer his thinking and research on theory, on assessment and treatment using a mix of lecture, discussion and video presentation.

**In this workshop**, Dr Ellert will present an introduction to the theory of structural dissociation and a psychology of action, and their application in the various treatment phases of chronically traumatized individuals. The theory hypothesizes that traumatization divides the biopsychosocial system that constitutes an individual's personality.

**Ellert R.S. Nijenhuis, Ph.D** is a psychologist, psychotherapist, and researcher. He received his Ph.D. with the highest honors at the Medical Department of the Vrije Universiteit Amsterdam for his book: *Somatoform dissociation: Phenomena, measurement, and theoretical issues* [reprint: W.W. Norton, New York/London].
